

## WHAT IS WRAPTIE™?

WRAPTIE™ is a multi-function tie-down and bundling strap

### Features

Fast-grab end - A

High-strength elasticised webbing - B

Quality hook & loop fastener - C

Loop handle - D

## HOW TO USE

### Bundling and Tie-down

1. Hold one end

2. Wrap around load & over itself

3. Load Secure!

### Fast-Grab End

1.

2.

3.

4.

## SAFE USE AND HANDLING

Please Observe the following precautions at all times:

No Fuels

No sharp edges

Not for Lifting

Minimum overlap 3

No heat

Max Load: 50kg / 110 lb

**IMPORTANT: Check load security before moving vehicle and periodically on longer journeys!**

## PRODUCT SPECS

### DIMENSIONS:

1300 / 1800 / 2400mm x 26mm

### CONSTRUCTION:

Core: 26mm elasticised Polyester webbing  
End fittings: high strength woven Polyester webbing  
Fasteners: Quality Nylon hook and loop  
Thread: High strength bonded Nylon

### KEY COMPONENTS:

- A: Fast-grab end: for fast fixing to roof rails & rope bars
- B: Elasticised core: provides high tension to securely fix load
- C: Hook & Loop fasteners: holds tightly, retains tension on load
- D: Loop handle: for tensioning and fastening-off

## CERTIFICATION / RATED LOAD

### LOAD RATINGS

WRAPTIE™ has been laboratory tested\* and is rated for a maximum load of 50kg (minimum overlap of 3 hook & loop fasteners). WRAPTIE™ is not for lifting.

### STANDARDS COMPLIANCE

AS/NZS 4380:2001- Cargo restraint systems relates to non-elasticised webbing straps. Since WRAPTIE™ is elasticised, it cannot be tested in accordance with this standard. However, every effort has been made to ensure WRAPTIE™ is a high quality trade-ready product.

### WARRANTY

WRAPTIE™ was invented and designed in Australia and has undergone rigorous development and field trials. If you find any manufacturing fault within 6 months please return it to us to exchange for a new one.

\*Tested by a NATA certified lab at 23°C / 50% RH

## TYPICAL APPLICATIONS

### TRADES PEOPLE

WRAPTIE™ is perfect for fast fixing of loads such as PVC conduit, small ladders, straight edges or some lengths of timber. WRAPTIE™ is not suitable for tying down sharp or heavy loads such as sheetmetal, steel sections or packs of hardwood

### REMOVALISTS / COURIERS

Use WRAPTIE™ to bundle loads in the back of the ute or van  
Strap loads to other loads, or secure items to hand or platform trolleys

### EXHIBITION CENTRES / PARTY HIRE / STAGING

Use WRAPTIE™ to bundle banners/displays and to secure items to hand trolleys. WRAPTIE™ can quickly bundle extension leads, lighting equipment and marquee poles
